Co-funded by the  
Erasmus+ Programme  
of the European Union

The E+ CBHE MEDACCR project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

## Overview

MEDACCR project, running from October 2017 until October 2020, is promoted by the European Commission in the frame of the Erasmus+ programme.

Its wider objective is to set up and implement an on-line Quality Assurance (QA) system and an accreditation system of Engineering Study Programmes (ESPs) in Algeria, Jordan and Tunisia, consistent with the EUR-ACE Framework Standards and Guidelines (EAFSG).

## Specific Project Objectives

- ◆To promote the design of student-centred ESPs focused on the definition of learning outcomes consistent with the programme outcomes shared at European level.
  - ◆To bring the internal QA of ESPs into line with the Standards and Guidelines for QA in the European Higher Education Area (ESG)..
- ◆To promote transparency and comparability of ESPs through an on-line documentation of their QA.
  - ◆To identify/create national centres/agencies for the EUR-ACE accreditation and to promote international recognition of ESPs.
- ◆To sustain the project by agreements with Ministries of Higher Education of the Partner Countries for the recognition / recommendation of EUR-ACE accreditation at national level.
  - ◆To disseminate the project results by involvement of the academic and administrative staff of the Partner Countries Universities.
